Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Notice to Applicant

1. This communication is in response to the Affidavit of Declaration under 37C.F.R 1.131 filed on 11/8/04. Claims 1-20 are pending.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Campbell (2001/0041993) in view of Vaidyanathan et al (2004/0059596), for substantially the same reasons given in the prior Office Action. Further reasons appear hereinbelow.

- (A) Claims 1-20 have not been amended.

Response to Arguments

4. Applicant's arguments filed on 11/8/04 with respect to claims 1-20 have been fully considered but they are not persuasive. Applicant's arguments filed 11/8/04 have been fully considered but they are not persuasive. Applicant's arguments will be addressed hereinbelow in the order in which they appear in the response filed on 11/8/04.

(A) At pages 2-3 of the 11/8/04 response, Applicant's submitted a declaration of Tola Dalton accompanied FAQ's an exhibit A of E-bay dated 11/22/99 and exhibit B of an email thread of KSFYRCOP @ aol.com.

(B) In response, the Affidavit of Declaration filed on 11/8/04 under 37 CFR 1.131 has been considered but is ineffective to overcome the Campbell and Vaidyanathan references for at least the following reasons:

(i) The affidavit fails to establish a completion of the invention by all of the joint inventors of the subject matter of the claim(s) under rejection.

Affidavits or declarations to overcome a rejection of a claim or claims must be made by the inventor or inventors of the subject matter of the rejected claim(s), a party qualified under 37 CFR 1.42, 1.43, or 1.47, or the assignee or other party in interest when it is not possible to produce the affidavit or declaration of the inventor(s). Thus, where all of the named inventors of a pending application are not inventors of every claim of the application, any affidavit under 37 CFR 1.131 could be signed by only the inventor(s) of the subject matter of the rejected claims. Further, where it is shown that a joint inventor is deceased, refuses to sign, or is otherwise unavailable, the signatures of the remaining joint inventors are sufficient. However, the affidavit or declaration, even though signed by fewer than all the joint inventors, *In re Carlson*, 79 F.2d 900, 27 USPQ 400 (CCPA 1935).

(ii) There is no clear nexus between the averred statements and exhibits to the claims.

Further, a 37 CFR 1.131 affidavit is not insufficient merely because it does not show the identical disclosure of the reference(s) or the identical subject matter involved in the activity relied upon. If the affidavit contains facts showing a completion of the invention commensurate with the extent of the invention as claimed is shown in the reference or activity, the affidavit or declaration is sufficient, whether or not it is a showing of the identical disclosure of the reference or the identical subject matter involved in the activity. See *In re Wakefield*, 422 F.2d 897, 164 USPQ 636 (CCPA 1970). In addition, Applicant is required to map the Exhibit with the claims to better clarifying His point of views.

(iii) It is not clear what was put into commercial use at least prior to 2/15/2000. For example which items of claim 1 were commercially or publicly used.

Any affidavits or declarations submitted under 37 CFR 1.131 and the accompanying evidence must be reviewed carefully by the examiner in order to determine whether they show that the claimed invention was "in public use" or "on sale" in this country more than one year prior to the effective filing date of the application, which acts constitute a statutory bar under 35 U.S.C. 102(b). Although the rejection based on the reference(s) or activity sought to be antedated may actually be overcome by such an affidavit or declaration, the effect of the applicant's prior "public use" or "on

sale” activities may not be overcome under 37 CFR 1.131. See MPEP § 2133.03 regarding rejections based on “public use” and “on sale” statutory bars.

Since the declaration was insufficient to overcome the prior art, Applicant argument regarding claims 1-20 is moot. Therefore, Applicant’s argument is not persuasive and the rejection is hereby made final.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
